High Frequency Words

Why learn to read words on sight?

Research shows that learning just 13 of the most frequently used words will enable children to read 25% of any text.

Learning 100 high frequency words gives a beginner reader access to 50% of virtually any text, whether a children's book or a newspaper report.

When you couple sight recognition of common and tricky words with knowledge of phonics, that's when a child's reading can really take off...
