

Eco-Schools update

Monday 5th July 2021

Update log: -Due to the third lockdown and the current Covid 19 restrictions we have organised Eco slightly differently.

I have completed another eco video to share with every class and the Eco reps. This has been emailed to staff with other eco updates. **This also includes a message to say we have achieved our green flag status once again (11.5.21). We also featured in the local newspaper.**

Eco reps will continue to complete their eco green sheets and tally recycling and energy saved. They will put any eco evidence in their eco books. They will also complete their walk to school registers.

I have updated the Eco page on the school website.

Coming soon...

-We hope to work on something with the school council and the PTA—eco friendly—planting seeding or selling plants

- We are planning 'The Greatest Gardener' event for EYFS (next year)- more information to come soon.**
- We will get Mr Eccles to answer all of our questions in September via video or in person (if possible)**
