

Whittaker Moss Primary School Sports Premium

Whittaker Moss Primary School believe that high quality physical education and school sports contribute to a range of outcomes for our children. Not only does it equip young people physical development, movement skills and body confidence, but it also contributes to their physical, mental and social well-being.

School already provides a wide range of sports coaching for the children to access both within and outside of the curriculum.

The government has provided every school with sports funding to spend on improving the quality of sports and PE for all children. This has allowed us to build on the success and participation within school and produce a schedule of exciting taster sessions for sports that children are not able to experience inside school as well as providing additional opportunity to compete and partake in team events.

The impact of this funding will be measured and the progress of pupils will be tracked.

2013/14
